

Welcome

to the *28th EPS Conference on Controlled Fusion and Plasma Physics* cdrom. We hope you will have as much fun and pleasure browsing the papers, retrieving information, and generally using the cdrom, as we had in preparing it.

The collection of papers can be accessed in two independent ways; there is an html view, featuring multiple indices, with (html) links to each paper in pdf format. This version contains a full cross-reference table of authors/papers, and is accessible here. Navigation in this view is purely html.

A second view uses pdf navigation and features a search engine on the papers. If this is your first time accessing this version, we suggest that you start by having a look at the help pages; otherwise, please proceed to the table of contents, or to the main navigation window.
